

ITALIAN TERRAZZO

by VULCANO TERRAZZO

INTRODUCING TERRAZZO

Italian Terrazzo by Vulcano Terrazzo has found its popularity in being not only a beautiful design solution but its vast unique colour palette, low maintenance, durability and heritage. Originating in the 16th century, Terrazzo remains a highly sought after material due to its unique montage and timeless appeal.

The Terrazzo can be used across a variety of surfaces, from bathroom flooring to kitchen bench-tops. Not only is this an aesthetic residential solution but can also be customised for commercial projects. Inigo Jones & Co offers three ranges with a variety of colour, chip size and specification designed to suit all.

Produced using the innovative technology that binds precious stone materials such as marble, stone, granite with cement and water, the resulting material is ideal for any application. The Italian Breton vibro compaction vacuum machines used to create this stunning material results in low porosity, high strength and low dimensional instability.

GRANDE RANGE

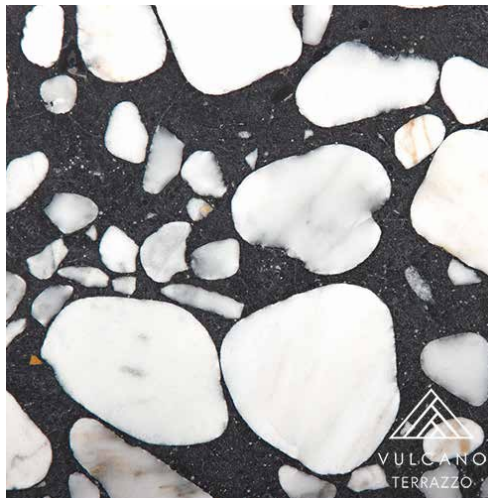

BIANCO

GRIS

SPAZIO

SLABS

Slabs are available upon request. Minimum order quantities may apply.

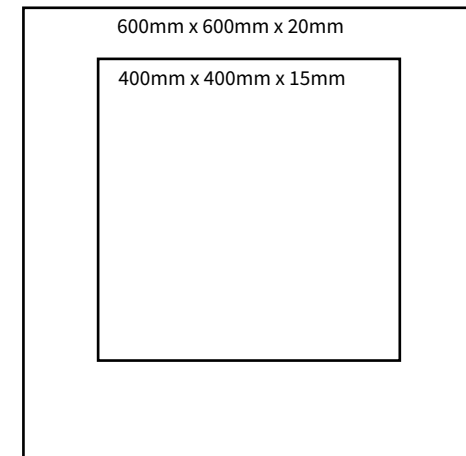

Slab size:
3050mm x 1250mm x 20mm

PRODUCT SPECIFICATIONS

Product Type:	Italian Made Terrazzo Tile
Colours:	Bianco Neve, Gris, Bella Varigato, Piccolo Bianco, Arancia, Spazio, Cielo Scuro, Pepe Bianco, Castello, Ciottolo
Origin:	Italy
Edge:	Micro Bevel
Finishes/Usages:	Honed
Slip Resistance Standard Honed:	R9
Water Absorption:	4.60M%
Flexural Strength:	6.90 Mpa
Resistance to Absorption:	18.40 cm ³ /50cm ²
Resistance to Compression:	70.00 N/mm ²
Density:	2.37 g/cm ³
Frost Resistance:	Resistant
Reaction to Fire:	Class A-1
